- Higher Secondary (+2)
Ravenshaw Junior College
2016 · 61.5%
- Secondary (10th)
Secondary Board High School
2014 · 88.36%

Profile

Innovative React Developer with 3 years of expertise in building high-performance web applications. Proven track record in optimizing load times and enhancing user engagement through advanced performance techniques. Skilled in modern React architecture, state management solutions, and delivering scalable, maintainable code.

Experience

React Developer December 2022 – Present
Odisha Television Ltd.

Projects

- OTV Stringer Input-Output App Next.js · TypeScript · Tailwind CSS
- Developed the frontend of a large-scale internal app using Next.js, TypeScript, and Tailwind CSS to streamline workflows for stringer teams.
 - Built reusable, type-safe UI components ensuring maintainability, scalability, and strong TypeScript integration.
 - Implemented responsive layouts and interactive dashboards with Tailwind CSS, enhancing usability across mobile and desktop.
 - Optimized data flow and API integrations to deliver seamless input-output operations for real-time field reporting.

- OTV CMS – Recommendation Model & Logging Panel React · REST API
- Integrated UI components to support the backend Recommendation Model for personalized content delivery.
 - Developed a detailed Logging Panel to track and visualize editorial actions, improving transparency.
 - Used React to build modular form components for editors to manage recommendation metadata efficiently.

- OdishaTelevision Website React · React Router · Tailwind CSS · REST API
- Architected dynamic, nested routing using React Router to handle breaking news, categories, and individual story pages.
 - Integrated efficient data-fetching strategies to keep headlines and live updates in sync with backend APIs.
 - Engineered a fully responsive, mobile-first design using Tailwind CSS, optimizing layout for diverse screen sizes.

- OTV Insight – Voting Platform React · Vite · Tailwind · otvinsight.com
- Developed complete frontend and admin dashboard for a participant voting platform with real-time voting.
 - Implemented participant management, vote tracking, filtering, and responsive UI for seamless user experience.
